PRODUCT DESCRIPTION

Cultivated in East Asia, osmanthus is a small evergreen shrub or small tree. It is a part of the same botanical family as jasmine and lilac. The recognisable aroma is complex, rich, sweet and is often used in fine perfumes and fragrance products. Labour-intensive and expensive to produce, osmanthus is an absolute extracted from the flower of the plant as the blossoms are too delicate for steam distilling the essential oil. This pure osmanthus absolute is prediluted in a base of Fractionated Coconut Oil and ready to apply in a convenient roller bottle. An enchanting personal fragrance or ideal to use as part of a massage.
